ABOUT MAGIC FUN

MAGIC FUN GAMING

Online games refer to video games that are played over the internet. They can range from simple text-based games to complex multi player virtual worlds. Online games have become incredibly popular due to the widespread availability of high-speed internet connections and the increasing sophistication of gaming technology.

Multi player Online Battle Arena (MOBA):

These games typically involve two teams of players competing against each other in real-time strategy battles. Popular examples include League of Legends and Dota 2.

SOLUTIONS

Using Blockchain to Enhance Web3 Adoption

This is especially relevant for developing countries. Hundreds of millions of people there lack access to basic banking services, let alone access to more advanced financial opportunities. They also often have to transact using highly unstable fiat currencies, prone to episodes of sudden profound devaluation.
